### **ASSIGNMENT:**

- THEOR ASSIGNMENT 2

**Description of Module:**

Our module is related to the courses in which we have to check that the student will login then he will navigate to a specific course and access the TOC (Table of Contents), lectures , Topics, Assignments, and other tabs.

The detail of all the tabs is also verified in our module and the links which are in each tab are also asserted in our module.

So, in short, our module deals with the navigation of students through various courses.

**Members:**

1. BASIT IQBAL
2. Fatima Aftab

<b>Id</b>	<b>Description</b>	<b>Expected Outcome</b>	<b>Actual Outcome</b>	<b>Verdict</b>
<b>TC_001</b>	To Verify that the student is logged in	The dashboard is displayed, and the name of the student is displayed in the corner.	The dashboard is displayed, and the name of the student is displayed in the corner.	Pass
